## PROFESSIONAL SUMMARY

A compelling resume should start with an effective statement that shows why you are the ideal candidate for the job. Demonstrate your value to the company by summarizing your accomplishments and how they can improve the organization. Create statements that highlight your strengths and what makes you a great fit for the company. When possible, quantify your achievements with data or evidence to make them more convincing.

Utilize this paragraph to succinctly outline your achievements, with the use of powerful action verbs. Concentrate on the talents and qualities you have determined are pertinent to the job description.

- The most crucial step in ensuring your resume gets selected as a suitable fit for the job you're applying for is to tailor it specifically to the company and role.
- Employers are interested in your accomplishments. Make it simple for them by mentioning what you accomplished, then contextualize it—using numbers or milestones if you can.
- For instance, in my role as business development manager, I forged new relationships and created partnerships that, over a four-year period, increased revenue from \$5 million to \$25 million. Team and overall organizational achievements can also be included here.
